

TRAINING PLATFORM

A user-friendly **online training** platform to deliver **customized training** for your media localization teams

CUSTOM TRAINING, TAILORED FOR YOUR TEAM

At OOONA, we have designed an advanced online Training Platform built to address the unique needs of the media localization industry. From managing enrollments to creating learning plans and grading work, our platform provides all the essential tools you need to teach your courses online. Whether you're onboarding new hires, upskilling employees, or offering professional development opportunities, our platform allows you to design bespoke, interactive training courses, in a private, secure learning environment that reflects your company's identity.

HOW IT WORKS

Powered by Moodle, a world-class, open-source learning management system, the OOONA Training Platform combines the best of Moodle's robust and popular features with a seamless integration of OOONA's industry-leading Timed Text Tools.

Trainers can effortlessly design and run courses, while learners benefit from hands-on access to professional tools tailored for the media localization sector. This comprehensive approach ensures an engaging and efficient learning process for professionals and newcomers alike.

EMPOWER AND GROW TEAMS, DRIVE SUCCESS

With the OOONA Training Platform you can easily upload your own private courses, enriched with multimedia content and practical exercises to meet your team's specific training objectives. Designed to accommodate organizations of all sizes, the platform scales as you grow, allowing you to add users and courses as needed. Whether you're looking for a platform to upskill your team, deliver specialized training programs, or create a private learning hub, the OOONA Training Platform offers the flexibility, scalability, and cutting-edge tools to help you achieve your goals.

BENEFITS

Online access from any computer, any time, any OS

Intuitive interface with full user customization

Interactive learning experience

Integrated access to OONA's industry-leading timed text tools

Real-time tracking and management of learner progress

Privacy and security of employee progress data

KEY BENEFITS FOR YOUR ORGANIZATION

- **Streamlined Administration:** Manage multiple courses and users from a single platform with user-friendly administrative tools.
- **Industry-Specific Tools:** Train your team on tools they will use in real-world professional environments, ensuring they are job-ready.
- **Cost-Effective and Efficient:** Save on training expenses by delivering courses online, while tracking and evaluating employee performance in real time.
- **Detailed Progress Tracking:** Monitor user progress and ensure training goals are met with detailed learner analytics.
- **Continuous Learning:** Provide your team with on-demand access to training materials, enabling learning anytime, anywhere.
